**Classes:**  
**SUNSTAR®: A Two Day Kaleidoscope Class**  
*BY: Paula Nadelstern*

Students learn all of the unique machine piecing and template techniques I use to create complex kaleidoscopic images while simultaneously exploring the virtues of bilaterally symmetrical fabric. You'll learn to draft perfect angles and to identify and join different angles together. This product and process class culminates in the creation of a unique and fabulous kaleidoscope block. Often effects more wonderful than you imagine occur, making you both the one who makes the magic and the one who is surprised.

Kaleidoscope the very word promises surprise and magic, change and chance. Exploding with visual excitement, a kaleidoscopic design organizes an abundance of light and color, form and motion into a complex and coherent image. My goal is to harmoniously integrate the idea of a kaleidoscope with the techniques and materials of quilting. I try to free myself from a conventional sense of fabric orderliness, seeking a random quality in order to imitate the succession of chance interlinkings and endless possibilities synonymous with kaleidoscopes.

I make quilts on the same block in the Bronx where I grew up. Being a New Yorker wrapped up in the fabric of city life creates an inherent paradox contrasting the traditional image of quilting as part of a simple, make-do, rural way of life with my own complex urban-shaped space.

Until I met quilts, I thought I was creative but not talented. To find something you love to do is a gift. To achieve recognition for it is a miracle. When I get overwhelmed by a longing for functional space, complete with an office and enough storage space so I don't have to constantly reinvent the room, I try to remember this.

My quilts have achieved international recognition for the innovative and complex designs inspired by the bilateral symmetry of kaleidoscopic images. Honored by inclusion in the Twentieth Century's 100 Best American Quilts, my designs have inspired products including the vast carpet in the Hilton Americas hotel in Houston, TX and were showcased in the American Folk Art Museum's first one person exhibition highlighting the work of a contemporary quilt artist (2009). In addition to numerous awards, I was a recipient of fellowships from the New York Foundation for the Arts and The Bronx Council on the Arts. I'm the author of Kaleidoscopes & Quilts, Snowflakes & Quilts, Puzzle Quilts: Simple Blocks, Complex Fabric, Paula Nadelstern's Kaleidoscope Quilts: An Artist's Journey Continues and Kaleidoscope Quilts: The Workbook. I design textile prints exclusively for Benartex, Inc. and live in New York City with my husband, Eric. My daughter, Ariel, lives a block away. I am very grateful.
