

What to Expect at Dog Camp

Dog Camp is intended to be a relaxed vacation for you and your dog with plenty of time to get to know other doggos or have quiet time on your own. We have planned a balance of training, group activities, and time on your own. You can bring your own food or purchase meals in our dining hall so mom doesn't have to cook.

Bay Shore Camp is a grassy, park-like setting with some wooded areas located on the shore of Saginaw Bay (part of Lake Huron). RV sites are not gravel, you will be sinking your toes into green grass. Young trees provide areas of shade. Youth Cabins have cement floors, eight sets of bunk beds, and clean bathrooms with showers. All buildings, except the Tabernacle, are air conditioned/heated. One cabin will be a women's dorm and one a men's dorm. Other cabins are available for families. If you are renting a cabin, you will need to bring your own bedding and a crate for your dog. WiFi is available everywhere. There is no cable TV.

Our dining hall is licensed like a restaurant, so no dogs are allowed inside. You will need to crate your dog in your cabin or leave him/her in your RV while you are eating in the dining hall. When we have an outdoor cookout, your dog may sit with you at your picnic table but may not go through the buffet line (you know, counter surfing).

We have a large, heated pool that is open when lifeguards are on duty. We have canoes available at our dock and dogs may swim there but the bottom is weedy. We will also have an area set up with kiddie pools so the dogs can play and have baths. Our mini-golf course has 18 holes, 9 of which are handicapped accessible. We will have an outdoor fenced area with some agility equipment and a gym set up with a rally obedience course. These will be available 24/7. We

have some pleasant walks for dogs on the property but if you desire miles of trails, we will give you a map to area State Parks with dog trails and beaches.

That's right, you can leave camp and go exploring on your own. We will give you a list of the best ice cream and coffee places.

August nights along the lakeshore can get cold so you will want to bring a jacket and a raincoat. We have mosquito control here but you will want to bring your own repellent for yourself and your dog. Sunscreen is recommended too.

You may arrive any time after 4:00 on Sunday, August 8th, and leave any time before noon on Friday, August 13th. If no one is at the gate to greet you, call the phone number posted there.

Our street address is 450 N. Miller, Sebawaing, Michigan and our office phone is 989-883-2501. Someone is in the office until 8:00 pm every evening.

Our 90 RV sites have water and electricity (30 amp). There is a dump station or our staff can help you with a portable RV waste tank mid-week.

Bay Shore Camp is an alcohol and drug free zone. Smoking is allowed outdoors.

Campfires are allowed in portable, above ground fire pits. We have some available or you can bring your own. Firewood is free. There are two large fire circles for group campfires.
